of cyber threats
constitute data
exfiltration.

#SOLUTION

FAMOC manage
simplifies deploying,
configuring and managing
all smartphones and tablets
in your organization.

It's one place where you control everything:
you can create profiles, enforce restrictions,
set PIN and password policies and many more.

From ten devices to ten thousand, corporate-owned
or BYOD, enrolling devices is quick, easy
and error-free. FAMOC allows actions to be carried
out on a single handset as well as performing bulk
operations on OS-differentiated groups of devices.
